How Did We Get Here?

Working Together for New Jersey is a coalition of individuals and organizations working to restore New Jersey's conservative and Christian values.

The [Constitution of the United States](#) defines the structure of American government. Article I describes the Legislative Branch, elections, and election cycles. In 2026, in New Jersey, one of the State's two U.S. Senators is up for election. ALL members of the House of Representatives, elected every 2 years, are up for election.

VOTING is one of the most fundamental rights and obligations of citizenship in America. Modern society and the "media" push citizens to believe that it's too hard to know for whom to vote. Hogwash. This email contains links to EVERY website for EVERY candidate who has a website in the 2026 General Election.

It is YOUR OBLIGATION to click these links, study the candidates, find ways to meet them in the four months before the General Election, decide for yourself whom you believe is the best candidate, and be prepared to vote in the election.

We encourage you to **reach out to personally** meet the candidates in the races which affect you (U.S. Senate and one of NJ's 12 Congressional Districts

... to financially support the candidates you believe are best, and to help your preferred candidates in their campaigns. They can't compete without your help.

Don't surrender your vote to someone else because you think you're not wise enough to choose. THEY AREN'T EITHER - but THEY vote. Guess whose preferences get enacted? Remember: only Jesus Christ was a flawless man - in every election that has ever taken place, the choice has been for the better of the candidates - not "the perfect candidate."
