DESCRIPTIONS: *Working Together for New Jersey / Election Integrity* is a coalition of individuals who share a belief that our election system should be as simple, transparent, and accurate as possible. We believe that the fourth branch of government is The People, engaging daily in the debate over the policies and rules that order their lives. Members of the coalition study government, engage in debate, and help verify the accuracy of the voter registration rolls so that everyone who is qualified to vote, regardless of political affiliation, has their vote count as they intended.

GENERAL VOLUNTEER: What kind of general help do we seek? Folks who will help with our Prayer Team, or with Secretarial Support, or Online Research, or Legal & Litigation Research ... Folks who can help with Communications, data programming, statistical analysis, or in Monitoring the Legislature or Executive Branch... Or folks with other special interests (tell us more, below!)

CANVASSING VOLUNTEER: These volunteers help us by work "in the field." When we cannot fix or identify anomalies within the voter registration rolls by study of the data, we have to visit homes and ask "do all these listed voters still live here?" We report deaths, moves, home sales and other findings to the county Board of Elections – only **they** can make adjustments to the voter rolls. But we can't find many of these things by only studying "lists." No experience necessary: we do online training regularly.
