Re: S2260/A2218

Before NJ Assembly Appropriations Committee, June 8, 2026

Choose your points. Be polite. Republicans generally already oppose these bills; but encourage Republicans to VOTE NO, not abstain.

(see <https://togethernj.org> for updates)

- I'm calling to ask _____ to OPPOSE S2260 and A2218
- I oppose further efforts to make New Jersey a sanctuary state for abortion and gender transition
- The bills are intended to intimidate free speech and scare those who oppose abortion and gender transition treatment using hormones and surgery
- These bills are terribly designed and worded and will result in lots of litigation
- The bills include vague terminology which could enable the Attorney General to charge anyone for rendering an opinion that any provider could allege “damaged reputation, created mental anguish or emotional harm” – very vague terms. It even makes “sharing information” or “inquiries” an illegal act.
- The bill enables anyone to bring a civil action on similarly vague accusations
- The bill would allow the Attorney General to block actions that others would label “free speech” – and seek “compensatory damages”
- The bill seeks to block federal or state law enforcement pursuing illegal activity from crossing into NJ in this pursuit – unwise at best, considering how much sex trafficking there is in NJ
- The bill blocks medical record-keeping, such as tracking of adverse consequences of chemical or physical abortion or gender transition procedures
- The bill blocks what would otherwise be legal extradition by federal or (other) state law enforcement, which makes New Jersey a sanctuary for crime
- The bill creates a safe haven or legal immunity for persons advising or participating in abortion, gender surgery, referrals toward gender transitioning
- Clergy or religious persons or even other physicians could be charged for expressing their moral viewpoints under this bill

I urge ___ to Vote NO on S2260 / A2218
